## ORIGINAL RESEARCH ARTICLES

Risk and safety of repetitive transcranial magnetic stimulation: report and suggested guidelines from the International Workshop on the Safety of Repetitive Transcranial Magnetic Stimulation, June 5–7, 1996 E.M. Wassermann (USA)	1
Usefulness of neurogenic motor evoked potentials for spinal cord monitoring findings in 112 consecutive patients undergoing surgery for spinal deformity Y. Péréon, J.-M. Bernard, G. Fayet, J. Delécrin, N. Passuti, P. Guihèneuc (France)	17
Motor and somatosensory evoked potentials in cervical spondylotic myelopathy A.M. de Noordhout, S. Myressiotis, V. Delvaux, J.D. Born, P.J. Delwaide (Belgium)	24
Multi-start downhill simplex method for spatio-temporal source localization in magnetoencephalography M. Huang, C.J. Aine, S. Supek, E. Best, D. Ranken, E.R. Flynn (USA, Croatia)	32
A MEG analysis of the P300 in visual discrimination tasks A. Mecklinger, B. Maess, B. Opitz, E. Pfeifer, D. Cheyne, H. Weinberg (Germany, Canada)	45
Somatosensory evoked magnetic fields elicited by dorsal penile, posterior tibial and median nerve stimulation H. Nakagawa, T. Namima, M. Aizawa, K. Uchi, Y. Kaiho, K. Yoshikawa, S. Orikasa, N. Nakasato (Japan)	57
Component wave analysis of flash visual evoked potentials in preterm infants K. Sawaguchi, T. Ogawa (Japan)	62
Impaired VEP after photostress response in multiple sclerosis patients previously affected by optic neuritis V. Parisi, F. Pierelli, R. Restuccia, M. Spadaro, L. Parisi, G. Colacino, M.G. Bucci (Italy)	73
Age and stage dependency of P300 latency alterations in non demented Parkinson's disease patients without therapy P. Stanzione, R. Semprini, M. Pierantozzi, A.M. Santilli, L. Fadda, R. Traversa, A. Peppe, G. Bernardi (Italy)	80
Generation of far field potentials from the trigeminal nerve in the cat Y. Ajimi, T. Ohira, T. Kawase, M. Takase (Japan)	92
Spontaneous EEG theta activity controls frontal visual evoked potential amplitudes E. Başar, E. Rahn, T. Demiralp, M. Schürmann (Germany, Turkey)	101
Localization of spatial attention processes with the aid of a probe technique K.J. Bruin, J.L. Kenemans, M.N. Verbaten, A.H.C. Van der Heijden (The Netherlands)	110
A method for the calculation of induced band power: implications for the significance of brain oscillations W. Klimesch, H. Russegger, M. Doppelmayr, Th. Pachinger (Austria)	123
Auditory evoked potentials to abrupt pitch and timbre change of complex tones: electrophysiological evidence of 'streaming'? S.J. Jones, O. Longe, M. Vaz Pato (UK)	131
Impaired mismatch negativity (MMN) generation in schizophrenia as a function of stimulus deviance, probability, and interstimulus/interdeviant interval D.C. Javitt, S. Grochowski, A.-M. Shelley, W. Ritter (USA)	143
The mismatch negativity for duration decrement of auditory stimuli in healthy subjects S.-L. Joutsiniemi, T. Ilvonen, J. Sinkkonen, M. Huotilainen, M. Tervaniemi, A. Lehtokoski, T. Rinne, R. Näätänen (Finland)	154
Differential effects of normal aging on sources of standard N1, target N1 and target P300 auditory event-related brain potentials revealed by low resolution electromagnetic tomography (LORETA) P. Anderer, R.D. Pascual-Marqui, H.V. Semlitsch, B. Saletu (Austria, Switzerland)	160
Isoflurane plus nitrous oxide versus propofol for recording of motor evoked potentials after high frequency repetitive electrical stimulation U. Pechstein, J. Nadstawek, J. Zentner, J. Schramm (Germany)	175
High-frequency (600 Hz) SEP activities originating in the subcortical and cortical human somatosensory system R. Gobbelé, H. Buchner, G. Curio (Germany)	182

Dissociation induced by voluntary movement between two different components of the centro-parietal P40 SEP to tibial nerve stimulation	190
M. Valeriani, D. Restuccia, V. Di Lazzaro, C. Barba, D. Le Pera, P. Tonali (Italy)	
Multimodality evoked potentials as a prognostic tool in term asphyxiated newborns	199
E. Scalais, A. François-Adant, C. Nuttin, A. Bachy, J.M. Guerit (Belgium)	
Chemosensory event-related potentials change with age	208
T. Hummel, S. Barz, E. Pauli, G. Kobal (Germany)	
Hemispheric asymmetry of the auditory evoked N100m response in relation to the crossing point between the central sulcus and Sylvian fissure	219
S. Ohtomo, N. Nakasato, A. Kanno, K. Hatanaka, R. Shirane, K. Mizoi, T. Yoshimoto (Japan)	
Presurgical functional localization of primary somatosensory cortex by dipole tracing method of scalp-skull-brain head model applied to somatosensory evoked potential	226
S. Mine, N. Oka, A. Yamaura, Y. Nakajima (Japan)	
Cortical localisation of magnetic fields evoked by oesophageal distension	234
P.L. Furlong, Q. Aziz, K.D. Singh, D.G. Thompson, A. Hobson, G.F.A. Harding (UK)	
Quantitative trait loci analysis of human event-related brain potentials: P3 voltage	244
H. Begleiter, B. Porjesz, T. Reich, H.J. Edenberg, A. Goate, J. Blangero, L. Almasy, T. Foroud, P. Van Eerdewegh, J. Polich, J. Rohrbaugh, S. Kuperman, L.O. Bauer, S.J. O'Connor, D.B. Chorlian, T.K. Li, P.M. Conneally, V. Hesselbrock,	
J.P. Rice, M.A. Schuckit, R. Cloninger, J. Nurnberger, Jr., R. Crowe, F.E. Bloom (USA)	251
Dynamic spectral analysis of event-related potentials	260
D. Melkonian, E. Gordon, C. Rennie, H. Bahramali (Australia)	
P3, Positive slow wave and working memory load: a study on the functional correlates of slow wave activity	274
L. García-Larrea, G. Cézanne-Bert (France)	
Language-related hemispheric asymmetry in healthy subjects and patients with temporal lobe epilepsy as studied by event-related brain potentials and intracarotid amobarbital test	283
W. Gerschlager, W. Lalouschek, J. Lehrner, C. Baumgartner, G. Lindinger, W. Lang (Austria)	
Auditory event-related potentials to semantic priming during sleep	291
J. Brualla, M.F. Romero, M. Serrano, J.R. Valdizán (Spain)	
Replicability of MEG and EEG measures of the auditory N1/N1m-response	299
J. Virtanen, J. Ahveninen, R.J. Ilmoniemi, R. Näätänen, E. Pekkonen (Finland)	
Topography and morphology of heart action-related EEG potentials	306
G. Dirlich, T. Dietl, L. Vogl, F. Strian (Germany)	
Cortical and thalamic visual evoked potentials during sleep-wake states and spike-wave discharges in the rat	320
H.K.M. Meeren, E.L.J.M. Van Luijtelaar, A.M.L. Coenen (The Netherlands)	
Single-sweep cortical somatosensory evoked potentials: N20 and evoked bursts in sevoflurane anaesthesia	325
V. Jäntti, E. Sonkajärvi, S. Mustola, S. Rytky, P. Kiiski, K. Suominen (Finland)	
Waveform analysis of spinal somatosensory evoked potential: paradoxically enhanced negative peaks immediately caudal to the site of conduction block	331
T. Tani, T. Ushida, H. Yamamoto, J. Kimura (Japan)	
Refractory properties of auditory brain-stem responses evoked by electrical stimulation of human cochlear nucleus: evidence of neural generators	345
M.D. Waring (USA)	
Interstimulus interval and auditory event-related potentials in children: evidence for multiple generators	355
R. Čeponienė, M. Cheour, R. Näätänen (Finland)	
The AEP T-complex to synthesised musical tones: left-right asymmetry in relation to handedness and hemisphere dominance	361
S.J. Jones, C. Byrne (UK)	
Automatic and effortful processes in auditory memory reflected by event-related potentials. Age-related findings	370
E. Amenedo, F. Díaz (Spain)	
Combined mapping of human auditory EEG and MEG responses	380
M. Huotilainen, I. Winkler, K. Alho, C. Escera, J. Virtanen, R.J. Ilmoniemi, I.P. Jääskeläinen, E. Pekkonen, R. Näätänen (Finland, Hungary, Spain)	
ERP components in category matching tasks	390
J. Jun, B. Porjesz, H. Begleiter (USA, China)	
Enhanced negative slope of the readiness potential preceding a target force production task	398
H. Masaki, N. Takasawa, K. Yamazaki (Japan)	
Very late pain-related activity identified with topographically mapped frequency domain analysis of evoked potentials	406
D.E. Becker, R.S. Noss, G. Fein, C.D. Yingling (USA, Switzerland)	
Three-dimensional tomography of event-related potentials during response inhibition: evidence for phasic frontal lobe activation	
W.K. Strik, A.J. Fallgatter, D. Brandeis, R.D. Pascual-Marqui (Germany, Switzerland)	

The scalp to earlobe montage as standard in routine SEP recording. Comparison with the non-cephalic reference in patients with lesions of the upper cervical cord	414
M. Valeriani, D. Restuccia, V. Di Lazzaro, D. Le Pera, C. Barba, P. Tonali (Italy)	
Dermatomal and mixed nerve somatosensory evoked potentials in the diagnosis of neurogenic thoracic outlet syndrome	423
R. Cakmur, F. Idiman, E. Akalin, A. Genç, G.G. Yener, V. Öztürk (Turkey)	
The covert interplay between perception and memory: event-related potential evidence	423
M.P. Viggiano, M. Kutas (Italy, USA)	
The N18 component of the median nerve SEP is not reduced by vibration	435
G.M. Manzano, N. Negrão, J.A.M. Nóbrega (Brazil)	
Magnetic stimulation of the corticospinal tracts in Pelizaeus-Merzbacher disease	440
A. Nezu, S. Kimura, S. Takeshita, H. Osaka, M. Tanaka (Japan)	
Relation of olfactory event-related potentials to changes in stimulus concentration	446
T. Tateyama, T. Hummel, S. Roscher, H. Post, G. Kobal (Japan, USA, Germany)	
The N400 in a semantic categorization task across 6 decades	449
M. Kutas, V. Iragui (USA)	
Visual cognitive dysfunction in depression: an event-related potential study	456
F. Bange, N. Bathien (France)	
Sympathetic skin responses recorded from non-palmar and non-plantar skin sites: their role in the evaluation of thermal sweating	472
K. Matsunaga, T. Uozumi, S. Tsuji, Y. Murai (Japan)	
Neural conduction in visual pathways in newly-diagnosed IDDM patients	482
V. Parisi, L. Uccioli, L. Parisi, G. Colacino, G. Manni, G. Menzinger, M.G. Bucci (Italy)	
EEG theta and frontal alpha oscillations during auditory processing change with aging	490
J.Y. Yordanova, V.N. Kolev, E. Başar (Bulgaria, Germany)	
Spike-induced interference in auditory sensory processing in Landau-Kleffner syndrome	497
S. Seri, A. Cerquiglini, F. Pisani (Italy)	
Effects of localized pontine lesions on auditory brain-stem evoked potentials and binaural processing in humans	506
H. Pratt, A. Polyakov, V. Aharonson, A.D. Korczyn, R. Tadmor, B.C. Fullerton, R.A. Levine, M. Furst (Israel)	
Cochlear implant performance and electrically-evoked auditory brain-stem response characteristics	511
S. Gallégo, B. Frachet, C. Micheyl, E. Truy, L. Collet (France)	
Quantification and rejection of ocular artifacts in auditory evoked fields in schizophrenics	521
T. Meier, T. Rosburg, M. Arnold, I. Kreitschmann-Andermahr, H. Sauer, H. Nowak, H. Witte (Germany)	
High frequency oscillations in early cortical somatosensory evoked potentials	526
I. Ozaki, C. Suzuki, Y. Yaegashi, M. Baba, M. Matsunaga, I. Hashimoto (Japan)	
Evidence for efferent effects on early components of the human auditory brain-stem evoked potentials	536
A. Polyakov, H. Pratt, Y. Shi (Israel, China)	
P300 and stress in mild head injury patients	543
Y. Granovsky, E. Sprecher, J. Hemli, D. Yarnitsky (Israel)	
Identification of the stimulated hemiretinae using a reduced number of PVEP trials	554
K. Hoffmann, H. Witte, H. Niedner, R. Vollhardt (Germany)	
Event-related potentials in patients with temporal lobe epilepsy reveal topography specific lateralization in relation to the side of the epileptic focus	560
W. Lalouschek, W. Gerschlager, J. Lehrner, C. Baumgartner, G. Lindinger, L. Deecke, W. Lang (Austria)	
Comparison of distortion product otoacoustic emissions with auditory brain-stem response for clinical use in neonatal intensive care unit	567
A. Ochi, A. Yasuhara, Y. Kobayashi (Japan)	
P9 in median nerve SEPs is a junctional potential generated by the change of the volume conductor size between trunk and neck	577
A. Mochizuki, M. Sonoo, T. Shimizu, M. Iwata (Japan)	
Brain electrical source analysis of primary cortical components of the tibial nerve somatosensory evoked potential using regional sources	584
U. Baumgärtner, H. Vogel, J. Ellrich, J. Gawehn, P. Stoeter, R.-D. Treede (Germany)
